OF DRIVING YOUR MAZDA

WHY ALIGN YOUR VEHICLE?

Alignment positions the wheels of a vehicle in correct relation to each other and to the vehicle structure. Proper wheel alignment is essential to the safe, smooth operation of a vehicle. Mazda highly recommends having your vehicle alignment checked regularly. It is a good practice to get alignment **once per year**.*

PROPER ALIGNMENT PROVIDES:

- 1 REDUCED TIRE WEAR**
Get the maximum life from your tires
- 2 DIRECTIONAL STABILITY**
Maintain the ability to follow when directed
- 3 CORNERING**
Travel curved paths safely
- 4 PREDICTABLE**
Avoid surprises
- 5 FEEDBACK**
Feel how your vehicle responds
- 6 TRACKING**
Follow the front wheels properly
- 7 FUEL MILEAGE**
Reduce uneven friction and resistance to help ensure fuel to normal rates

MAZDA ALIGNMENT SERVICE

A Mazda is an intricate, highly sophisticated driving machine. If your Mazda needs an alignment, you want your service technician to know and understand your vehicle, so the job is performed quickly and correctly the first time.

*Alignments are not part of your regular scheduled maintenance, but an additional service. Requirements are subject to road conditions experienced while driving.

OTHER SIGNS THAT CALL FOR AN ALIGNMENT INSPECTION:

- Steering pulls to one side
- Uneven wear on tires
- New tires or suspension components are installed

Alignment service includes adjustments to an array of components to help ensure that wheel and suspension angles — known as caster, camber and toe — are properly aligned according to the manufacturer's specifications. Depending on your Mazda's drivetrain, your Mazda dealer may recommend a front-wheel or 4-wheel alignment.

WHEEL BALANCE

Wheels become imbalanced when one section of the tire or wheel assembly is heavier than the others. Imbalanced tires will make a vehicle vibrate at certain speeds. To balance a wheel, a technician uses a balancing machine to locate the heavy section of the tire, then compensates by attaching a weight on the opposite side.

MAZDA FACTORY TRAINED TECHNICIANS

Nobody understands the heart and soul of a Mazda better than a Mazda trained expert.

Our technicians are Factory Trained and up to date on the latest service bulletins, recalls, parts changes, and service procedures. Other shops can't make such a powerful claim.

WE ALSO PROVIDE:

- Genuine Parts
- Scheduled service requirements developed expressly for Canadian driving conditions

Mazda's trained technicians are equipped with the knowledge and skill to assess misalignment problems and fix them quickly and accurately.

Should further repairs be necessary, Mazda Genuine Parts are the best fit for any Mazda vehicle and are the only parts covered under replacement parts limited warranty.
